

Inigo Update

November 2006

M.A.I.L. Trading Standards

Meeting Room at Castle Hill House

Inigo Business Centres is the first company to receive the Royal Borough of Windsor and Maidenhead's Mailing, Accommodation & Internet Locations (MAIL) Fair Trade Scheme certificate. The scheme is for businesses offering accommodation addresses or virtual office services and is designed to ensure that members co-operate with law enforcement officers, keep accurate records of business clients and require suitable identification of prospective clients.

Steve Johnson, trading standards manager, said: "Although most companies use these facilities for genuine purposes they can be an easy route for rogue traders to set up dodgy companies for home-working schemes, prize draw scams, mail order goods etc and, if not properly checked, avoid detection."

Jenny Faulkner, Inigo company secretary said: "Inigo Business Centres is pleased to support this initiative. It is in the interests of all our clients that people should be able to have confidence in the integrity of anyone associated with the Inigo brand."

Virtually Inigo services are available at all our centres.
