New team at Eastlands II

Rachel, Liz and Hayleigh

Last year saw a new team at Eastlands II in Basingstoke. The new CM Liz Buckland, a geography graduate, has customer service and account management experience in industries as diverse as Structured Cabling and Mail Order Wine. Liz has high hopes

of one day writing a novel.

Rachel Geeson, the ACM, has a background in customer services from the medical and publishing industries. In her spare time she designs and makes jewelry and runs a successful local bead group.

Hayleigh Lee, before becoming the receptionist at Eastlands, was a PA in the Banking and Renewable Energy industries. She hopes to one day train as a Primary School teacher and stop small children putting crayons in their ears.

After being full for some time Eastlands has three small offices available as detailed on the reverse.
