Premier Suite is Available in Windsor

Suite overlooking the Castle

For the first time in five years the principal suite at Castle Hill House is becoming available. The lovely two adjoining rooms on the first floor look straight out at the Henry VIII gate of Windsor Castle. Each room has its original fireplace and the five windows create beautifully light space.

The suite can be arranged to suit a wide variety of office requirements with up to

in the smaller. The latter is currently furnished for a chief executive with its own meeting table.

Within serviced offices generally this suite must be nearly unique with both its setting and prime address of Castle Hill House, Windsor.

This space will be available from 1st December 2009.
